

SEMINAR

Monday, 25.11.2019 at 13:00

Kolar's lecture hall

Tuning the Selectivity and Activity of EC Interfaces.

Asst. Prof. Boštjan Genorio,

Faculty for Chemistry and Chemical Technology

ABSTRACT

Boštjan Genorio will present their research activities in the field of smart devices for energy conversion and storage, where the functionalization of materials plays a crucial role.

Kindly invited.
